Abstract (en)
[origin: WO2011107177A2] In order to accommodate equipment outdoors in the smallest space while at the same time improving accessibility and order, a storage device for outdoors is specified, comprising: at least two accommodating chambers (11), which each have one or more opening areas (13) that can be closed, wherein the one opening area (13) or the plurality of opening areas (13) together that belong to the same accommodating chamber (11) have an area that corresponds substantially to an area of an outside of said accommodating chamber (11), and wherein the opening areas (13) are arranged on at least two sides of the storage device that are adjacent to each other.
