Abstract (en)

[origin: WO2011110776A1] The present invention relates to a container including (i) an outer casing (5) made of cardboard and (ii) an inner plastic film (6) that is inserted so as to form a lining inside said cardboard casing (5) and is intended to contain a packaged food product. Said container (1) comprises an inner space (7) that is provided between said cardboard casing (5) and said plastic film (6), thus forming a place in which at least one fitting (A) is to be housed. Moreover, the cardboard casing (5) comprises a manually controllable means (8) for creating a window (9) for access to said inner space (7) so as to enable the removal of said object (A).
