Abstract (en)

[origin: WO2011117026A2] The present invention relates to a method for producing a moulded body, in particular a vulcanized moulded rubber body. In method step a), the moulded body is first of all formed from a vulcanizable material. A thermosetting coating can subsequently be applied to the surface of the moulded body. In method step b), the moulded body is dipped into a heated silicone bath in order to vulcanize the vulcanizable material of the moulded body and/or to cure the thermosetting coating.
