Abstract (en)

[origin: WO2011117196A1] The invention relates to a cabinet, especially a safety cabinet or hazardous substances safety cabinet, for storing preferably liquid hazardous substances, comprising a cabinet carcass (7) and a least one cabinet door (8) closing the cabinet carcass (7). The invention is characterized in that an access control unit (10) is provided which not only opens the cabinet door (8) once the access control check is positive, but also releases a media dispensing unit (4) arranged inside the cabinet carcass (7).
