Abstract (en)

[origin: EP2551208A1] The case (E) has a parallelepiped envelope including two main panels (11, 18) and two side panels (15, 21). A closing flap (13) and another closing flap are articulated by a fold line perpendicular to longitudinal edges in opposite ends of the main panels. A locking tongue (14) and another locking tongue are articulated by a fold line parallel to the fold line of the closing flaps. An adhesive label (2) for holding a user guide (3) is bonded partially on an inner surface of the main panels of the envelope, where the label includes an insertion opening for the user guide. An independent claim is also included for a pre-cut blank of cardboard material for making the packaging case.
