Abstract (en)
[origin: WO2011120100A1] A bracket assembly (2) for providing an attachment point on a surface for supporting an article. The bracket assembly (2) includes a body member 6 arranged so as to be held against a region of the surface by way of magnetic association therewith. The body member has a support region (7) from which the article may be supported. The body member 6 may be arranged so that, when in use, the support region (7) is spaced from the surface.
