Abstract (en)
[origin: EP2554755A1] The drain system (1) has mounting frame (2) that is connected with communication flow unit (3) and with an outlet channel (4) through a discharge opening (27). A trough element (5) is provided with a standing surface (6). The standing surface is opened into the discharge opening so that standing surface is arranged such that ground water is supplied to outlet channel. The trough element is attached to mounting frame through a fastening element (7).
