Abstract (en)
[origin: WO2011124601A1] The invention relates to a bus bar adapter (1) for fastening a luminaire or a spotlight to a U-shaped bus bar and for contacting conductors present inside the bus bar, wherein the bus bar adapter (1) comprises a housing (2), which has a T-shaped cross-section and a central part (10) provided for engaging in the bus bar, and a base part (20), which connects to the central part (10) and is oriented transversely thereto and which is seated against the outside of the bus bar in the inserted state. A core element (60) that is provided for mounting the luminaire or spotlight is arranged inside the housing (2), said core element extending both into the central part (10) and into the base part (20), wherein the core element (60) preferably has an integral design.
