Abstract (en)
[origin: EP2557255A2] The invention relates to a kit of parts for constructing a seating arrangement. The kit comprises a seating portion (70), a floor portion (40, 50) and a support structure (12) for supporting both the seating portion (70) and the floor portion (40, 50) when the kit of parts is assembled. The seating portion (70), floor portion (40, 50) and support structure (12) are adapted so that the floor portion (50) is anchored to the support structure (12) by the seating portion (70).
