Abstract (en)
[origin: WO2011128361A1] A snorkel holder apparatus is described, comprising an attachment element for attachment to a diving mask strap. According to the invention, the attachment element is formed by a clip (1) for attachment to a tubular part of a snorkel and a clip (2) which is attached to a diving mask strap, wherein the clips (1, 2) are provided with connections (5, 11) which make contact with one another, wherein each connection (5, 11) has a magnetic characteristic, in order to attract the two clips to one another.
