Abstract (en)

[origin: WO2011128553A1] The bag for pieces of fruit is in the form of a tubular bag (100, 100A, 100B, 100C) made of transparent plastic suitable for food, which has, when empty and laid flat, a rectangular shape and in which pieces of dried fruit (MF) are collected, not under vacuum. The sealed bag, filled with pieces of fruit, is subjected to a brief microwave treatment in order to block the development of microbes and to inhibit enzymes.
