Abstract (en)

[origin: WO2011128537A1] One subject of the present invention is a process for modifying a composition comprising at least one plasticized flour according to which, in an extruder, at least said plasticized flour is reacted with at least one organic anhydride, the amount of organic anhydride incorporated representing between 30 and 670 parts by dry weight per 100 parts by dry weight of flour.
