Abstract (en)
[origin: WO2011131656A1] A gulley (1) is provided which comprises a gulley pot (3), an outlet (6) and a baffle (9). The baffle is pivotably fixed to the gulley pot such that the baffle is movable between a first stable position (I) with respect to the gulley pot in which the baffle at least partially overlaps the outlet and a second stable position (II) with respect to the gulley pot position in which outlet is substantially uncovered by the baffle. Further, a baffle assembly and a method are provided.
