Abstract (en)
[origin: WO2011131641A1] The invention relates to a built-in closet assembly (1), comprising at least one closet element (2) and at least one facing element (3), which adjoins the closet element (2). In order to create a flexible built-in closet assembly, the facing element (3) is fastened to the closet element (2) and aligned with respect to the closet element (2) by means of fastening to the closet element (2).
