Abstract (en)
[origin: WO2011134804A1] Method for adapting a textual content to the language behaviour of an on-line community, comprising the following steps: - establishment of a semantic cloud of tags of the on-line community; - determination, on the basis of the semantic cloud of tags, of at least one semantic neighbourhood to at least one concept of the textual content; - reformulation of the textual content with the aid of the semantic neighbourhood determined.
