Abstract (en)
[origin: EP2565130A2] The insert (1) has a base plate (2) and a compartment (3) with a set of partition walls (4) that is spaced apart parallel to each other and another set of partition walls (5). The two sets of the partition walls comprise slots through which the partition walls are crosswise plugged together. The partitions walls are made of hard plastic material, and the slots extend approximately up to half the height of the partition walls. Two parallel webs are used in an extension for guiding edges of the respective recorded slots.
