Abstract (en)

[origin: EP2565316A1] The water-conducting domestic device (1) has a basin housing (2) and a basin (3) inserted in the basin housing. A pneumatic line system (13) has a pump (10), where the air is guided to an ozone generator (11) by the pneumatic line system to generate an ozone-containing air flow. The pneumatic line system has a line piece (14). The line piece has a line opening.
