Abstract (en)
In an information processing apparatus(102), information concerning the data format of a document designated by a terminal apparatus (103) and a data format compatible with the image forming apparatus (101) are received (S802) in accordance with an instruction from a user, and a connection route, of a plurality of connection routes to the image forming apparatus (101) designated by the user and the terminal apparatus(103), which allows the image processing apparatus (102) to process the document data is selected (S813) based on the received data format of the document and the data format compatible with the image forming apparatus (101). The terminal (103) apparatus displays (S816) the selected connection route.
