Abstract (en)
[origin: WO2011138292A1] The present invention relates to a luminous finger-protection apparatus (120) for a door (100) of a vehicle. The finger-protection apparatus (120) has a protective strip (140) which is intended to be fitted to a door edge (130) of the door (100) and a luminous means (150) for indicating a state of the door (100). The luminous means (150) extends along the door edge (130) and is connected to the protective strip (140).
