Abstract (en)

[origin: EP2568214A2] The damp-proof lamp has housing (2) that is covered by a light-permeable cover (4). A through hole (8) for inserting power cable for supplying power to lamp is formed in housing. An electric connecting element for connecting power cable with an electrical conductor (14) of lamp is provided inside the interior space of housing. An access opening (6) is formed in housing such that connecting element is electrically connected to power cable using access opening.
