Abstract (en)
[origin: WO2011141648A1] Overhead public transport installation for urban and peri-urban environments using track ropes (34) with overhead stations (38) each comprising a platform (36) situated below the level of the boarding/disembarkation platforms (24) and consistent with the overhead clearance (27) of the road transport system (7) in terms of the difference in level that corresponds to the sag in the track ropes (34).
