Abstract (en)
[origin: WO2011141021A1] The invention relates to an electrical contact element, which is made from solid material, is designed as a pin contact (2a) or a socket contact (2b), and has a plugging section (2) and a connection section (3) for contacting a stranded electrical conductor, wherein the connection section (3) is designed as a crimp connection, and wherein the connection section (3) is shaped like a hollow cylinder (3a) that contains a slit (4) in the axial direction.
