Abstract (en)
[origin: EP2573299A1] The system (1) has a support structure (2) having vertical or erected upright posts (10-13), and polygonal roof structure (3) having cross-beams (30-33) that are provided in the upper portion of the posts. The recesses are formed in the upper region of the post. The cross beams are provided with the tail broadening portions (43,53) at one end. The tail broadening portion of the cross beams is engaged with the recess of the posts. An independent claim is included for mobile pavilion.
