Abstract (en)
[origin: EP2574257A1] The window decoration has an extension which is assigned to a window element of a building in front of the outer wall of the building and serves as a carrier for the window decoration, particularly a miniature garden. The extension has a mounting unit which is connected with the extension. The mounting unit is fixed directly to the building by clamping force, suction force or adhesion force, particularly by avoiding processing or breakdown of the building.
