Abstract (en)  
[origin: WO2011152791A1] This invention concerns an element 1 intended to be laid on a base A in order to obtain at least one of walking surfaces, traffic-bearing surfaces, decorative surfaces and other types of surface. The element 1 comprises stones 2 and a grout 3. The stones 2 are arranged at a distinct distance from each other. The grout 3 forms a slab 4 that is arranged under or behind each stone 2 and that holds the stones 2 together. The grout 3 fills the spaces 5 that are present between the stones 2. The grout 3 forms and constitutes together with one surface 2.1 of each stone 2 at least one of a wear surface, a decorative surface, an upper side and a front surface 6 of the element 1. The invention concerns also a method for the manufacture of an element 1 according to the invention and a form that is to be used during the manufacture of an element 1 according to the invention.
