Abstract (en)

[origin: WO2011147785A1] The device for supplying power to an item of equipment (2) through a current-limited power supply bus (1) according to a nominal voltage (Vb) of the item of equipment comprises an auxiliary power supply device comprising an energy storage facility (5) and a facility (6) for triggering an auxiliary power supply for the item of equipment (2) on the basis of the storage facility (5) by way of a voltage step-down converter (7) for converting the auxiliary voltage to the nominal voltage.
