Abstract (en)

[origin: WO2011147918A1] In order to provide a service, for example a tax refund service, an apparatus is responsive to a mobile communications device identifier for a mobile communications device of a user to verify whether the mobile communications device Identifier is associated with a registration for the service, and, in the event that the mobile communications device identifier is registered with the service, to determine predetermined user information associated with the mobile communications device identifier for providing the service.
