Abstract (en)

[origin: EP2578761A1] The post and beam construction assembly has supporting structure (1), and pressure elements (5) that are fixed on the filling elements (4) through inner and outer seals (6,7). The supporting structure includes support element (2) to support the filling element. A flag seal (3) has seal area (27) provided between the outer seal and the filling element at supporting structure. The flag seal is arranged over the support element.
