Abstract (en)

[origin: EP2578763A1] The window (1) has a frame with a top member (2), a bottom member (3) and two side members (4, 5). Mounting brackets (10) are provided, each mounting bracket (10) comprising a first leg portion (11) for connection with an associated frame member (2, 3, 4, 5) and a second leg portion (12) for fastening to the roof structure. The window frame is provided with grooves (7; 8a, 8b) defining predefined installation levels, such that when said mounting bracket (10) is placed with said flange (30) in engagement with one of the first and second grooves (7; 8a, 8b), the window (1) may be installed in the installation level corresponding to that one of the first and second grooves (7; 8a, 8b).
