Abstract (en)

[origin: WO2011155841A1] Mould (30) for concrete floor elements which have at least one slab (2) and at least one beam (3) extending along said slab (2) in a length direction, wherein the mould (30) comprises at least a first part (31) and a second part (32), which can close against each other for forming a mould cavity (41), wherein the first mould part (31) has a bottom surface (37), preferably substantially flat for forming a first side (10) of the slab (2) and wherein the second mould part (32) has a top side with a beam forming profile (38) for forming at least part of the at least one beam (3), wherein the bottom surface (37) extends at an acute angle alpha; to a horizontal plane and the length direction is substantially horizontal and wherein at least one opening is provided, forming a filling and/or aeration opening.
