Abstract (en)

[origin: WO2011147899A2] The present invention relates to a low-pressure storage unit for a refrigeration appliance and such a refrigeration appliance. The low-pressure storage unit comprises a housing (40) defining an evacuable storing chamber (32). According to suggestions of the present invention, the housing (40) comprises at least one first member (11) made of metal and at least one second member (10, 16, 17) made of plastic, and the first member (11) and the second member (10, 16, 17) each form a part of walls of the storing chamber (32).
