Abstract (en)
[origin: WO2012000496A2] The invention relates to an arrangement (1, 14, 20) having at least one electric potential-varying device (12, 16, 17, 17') for varying the electric potential of at least one electrical device (2, 2', 4, 15, 15') with respect to earth potential, and a technical room arrangement. In the operating state, the electric potential-varying device (12, 16, 17, 17') is disposed in the technical room arrangement (8).
