Abstract (en)

The present invention relates to a drawer including a drawer panel (10) and a drawer box (14). The drawer panel (10) forms a front panel of the drawer and comprises an upper bending (16) and a lower bending (18). The upper bending (16) and the lower bending (18) are directed rearwards. The drawer box (14) comprises at least a bottom wall (30) and two side walls (32). A pair of elongated support elements (12) is arranged or arrangeable vertically at the lateral end portions of the drawer panel (10). The support elements (12) are clamped or clampable between the upper bending (16) and the lower bending (18) of the drawer panel (10). The side walls (32) of the drawer box (14) are connected or connectable to the support elements (12).
