Abstract (en)  
The invention concerns a folded paper dispenser comprising a housing (1) surrounding a paper magazine (2) for a stack of folded paper (3) and provided with an outlet opening (4) for dispensing said paper (3). The invention is characterized in that the folded paper (3) stored in the paper magazine (2) is a continuous folded paper web (3) whereby a cutting element (5) is mounted in connection with the outlet opening (4). The dispenser is preferably provided with a manually or electrically operable portioning mechanism (6, 7) possibly comprising a cutting drum (6).
