Abstract (en)

[origin: EP2581485A1] The present invention relates to a method for assembling a front panel for a domestic appliance, wherein said method comprises the steps of: - providing a decorative cover (10) made of one or more at least partially transparent materials, - providing a support plate (12) with at least one cutout corresponding with said decorative cover (10), - providing at least one holding device (14, 16) for receiving control elements and/or display devices, - applying a glue bead (18, 32) onto a rear side of the decorative cover (10), - attaching the support plate (12) onto the rear side of the decorative cover (10), and - attaching the holding device (14, 16) onto the glue bead (18, 32), - so that the glue bead (18, 32) is at least partially covered by said support plate (12) and/or the holding device (14, 16). Further, the present invention relates to a corresponding front panel for a domestic appliance.
