Abstract (en)
[origin: WO2011157281A1] A print-head module (1) for a single-pass inkjet printer is specified, which print-head module (1) comprises a housing (3), a hanger part (4) which is fastened to the housing (3) for hanging in a manner which is oriented in the direction of gravity, and a number of print heads (10) which are arranged on the housing (3) along a transverse direction (8) which is perpendicular with respect to a running direction (7), wherein the print heads (10) are positionally adjusted at least at one reference position. The print-head module (1) can be exchanged simply and rapidly. Complicated re-adjustment on the single-pass inkjet printer can be dispensed with.
