Abstract (en)

[origin: WO2011157784A1] The present invention relates to an assembly comprising at least one construction panel with at least one spacer inserted in the interior thereof, and a method for mounting the assembly. This assembly (100) is characterized in that the projecting portions (3a, 23a, 33a) of the spacers of the panels (10, 20, 30) are in contact with one another or the projecting portion (3a) of the spacer (3) of the panel (10) is in contact with the outer part (15), spaces remaining between at least the outer webs (1, 21, 31) or the inner webs (2, 22, 32) of the panels (10, 20, 30) or between at least the outer web (1) or the inner web (2) of the panel (10) and a portion of the part (15) opposite said web (1 or 2) after assembly (100), at least one connecting element (6, 7, 37, 151, 152) being inserted into at least one space.
