Abstract (en)

[origin: EP2584115A2] The present invention relates to a spreading and screeding device (2) for manufacturing a screed floor, and a method therefor. The device is more particularly suitable for manufacturing a cement screed floor. For this purpose the device according to the invention comprises: - a displaceable frame (4); - a roller (6) connected to the frame for levelling the screed floor; and - a pressing and spreading roller (8), connected to the frame and placed functionally in front of the roller during use, for spreading and pressing screed floor material.
