Abstract (en)
[origin: WO2012000758A1] The invention relates to an equipment rental system (10), consisting of an authorization housing (15) attached to the equipment (10), at least one console (300) for accessing a rental management server (40), and at least one secure storage medium (20). The storage medium (20) is connected to said authorization housing (15) for enabling the use of the equipment, and is connected to the console (30) for providing updates with respect to the use of said equipment. The system is designed to provide protection against breaches, the purposes of which are to falsify, in particular, the amount of time the equipment was used.
