Abstract (en)
[origin: WO2012000660A1] A device (1) having an ejection means (2) is proposed, the ejection means, when fitted on an item of furniture, exerting a dynamic effect on a furniture part (3), which is guided movably on the item of furniture, in the opening direction of said furniture part, and having a force accumulator for moving the movable furniture part (3) and a charging mechanism for the force accumulator. According to the invention, the ejection means (2) with a force accumulator (23) is designed for attaching to the movably guided furniture part (3). Furthermore, an item of furniture with a device (1) having an ejection means (2) is proposed.
