Abstract (en)

[origin: WO2012004365A1] The present invention relates to improved sports clothing, to a method for manufacturing sports clothing and the use of sports clothing in order to prevent muscle injuries and / or for their treatment. In particular, the invention relates to a garment comprising a fabric (8) with pretension, attached to a basic layer. A characteristic feature is further that the pretensioned fabric (8) has a lower strain than the material of the basic layer.
