Abstract (en)  
The present invention relates to a dishwasher (10) comprising: a cabinet (11); a washing chamber (20) arranged within the cabinet (11) and provided with an opening (24) for access to the washing chamber; a door (12) turnably attached to the cabinet (11) in order to open and close the opening, said door (12) having an inside surface (14) facing the washing chamber and a front surface (13); and control means for program selection and/or activation of the dishwasher (10). The invention is characterised in that said control means comprises projecting means (30) arranged in the cabinet (11) to generate one, or more, projections (17) on the inside surface (14) of the door (12), said one or more projections (17) are used for displaying information, program selection and/or activation of the dishwasher (10).
