Abstract (en)  
[origin: WO2012013172A1] The invention relates to leather clothing, comprising an outer layer made of leather (1), which is connected to an inner layer made of elastic material (2), wherein the leather is provided with folds (11) over the majority of the surface area of the leather, wherein said folds are distributed approximately regularly over the surface area and connect the leather to the elastic material by means of a plurality of seams that are spaced from each other, and the elastic material is a textile woven fabric.
