Abstract (en)

[origin: WO2012010589A1] The invention relates to an ejector unit (1), in particular for movable furniture parts, comprising a pivotably mounted lever (2), which is preloaded by means of a spring (17) in an ejection direction, wherein the lever (2) is provided with a detent mechanism (11, 20) by means of which the lever (2) can be latched in a closed position against the force of the spring (17). This allows the ejector unit (1) to have a particularly compact design.
