Abstract (en)

[origin: EP2597240A2] Overhead door track system hanger arrangement (1) for ceiling mounting of an overhead door track system. The overhead door track system hanger arrangement (1) comprises a first brace (2) having an upper end (3) attached to a ceiling attachment means (4), wherein the first brace (2) has a lower end (5) comprising a first overhead door track system attachment means (6). The overhead door track system hanger arrangement further comprises a second brace (7) having an upper end (8) attached to the first brace (2), wherein the second brace (7) has a lower end (9) comprising a second overhead door track system attachment means (10). The upper end (3) of the first brace (2) is articulately attached to the ceiling attachment means (4) and the upper end (8) of the second brace (7) is articulately attached to the first brace (2) such that the overhead door track system hanger arrangement (1) is foldable and continuously vertically adjustable.
