Abstract (en)
[origin: EP2597733A1] The electric household appliance (100) has a housing (120), a power plug (210) which comprises electrical contact pins (230-1,230-2) on a front surface (220). The power plug is formed to supply the electric household appliance with electrical energy for consumption by the electric household appliance for its intended use. A receptacle (250) for the power plug is provided in or on the housing, such that the power plug with the front surface is inserted in the receptacle.
