Abstract (en)  
[origin: EP2600333A2] The display device (100) has a display unit (10) that displays construction site information, fastening elements (30) for attachment to a support, and a display unit (20) that displays additional information. An electronic control unit (40) independently displays the construction site information and additional information on respective display units. A transparent protection cover (50) at the display sides of display units, liquid-tightly covers an area above the display units. Independent claims are included for the following: (1) building container; and (2) construction site scaffold.
