Abstract (en)
[origin: WO2012016694A1] A phytogenic animal feed consisting of conifer meal for all fields of animal nutrition, for example pigs, ruminants, poultry, horses and rodents. Due to the composition, in particular the content of essential oils, tannins and resins, its use is highly effective even at low dosage rates. Digestive processes, and therefore animal performance and health, are improved in a natural manner.
