Abstract (en)
[origin: WO2012016343A1] In the case of multi-part luggage, the parts (10, 20) can be joined together to form a closable single piece of luggage. The parts can be closed in their own right. They are produced as hard-shell pieces of luggage and joined together to form hard-shell luggage. The closable individual parts can be closed, for example, by means of roller-shutter mechanisms or by a grille.
