Abstract (en)

[origin: EP2602067A2] The transport- and storage container (100) has a base (102), two side parts (106) and two front sides of plastic, where one of the front sides has a removal opening. The container side lying opposite to the base is open and has a container edge. The container also has a metering disk (114) which is pivotally hinged between two end positions in area of the container edge. The metering disk is detachably fixed in the former or latter end position. The metering disk permanently remains in the container. The metering disk is fixed in the end position by a latching unit.
